

STAYING INDEPENDENT Personal Action Plan

Now that you have identified changes and/or repairs that need to be completed around your home, it's time to make a plan to eliminate the hazards you discovered. However, it is important to determine which tasks you can complete yourself, which ones require two or more people to complete, and which ones require professional assistance. If you are uncertain, you are encouraged to consult a licensed professional before getting started. Keep in mind that you may be creating a new hazard if you try to repair something in an unsafe manner.
